General Market pieces have been published for mainstream audiences, in mainstream publications while still having an underlying expression of the writer's Christian worldview. These pieces may deal with more difficult topics involving human nature or the brokenness of the world and its people. They may be written in a grittier way and expressions of faith may be subtler. However, the writer's faith still influences the work and the work may also still offer encouragement or a greater understanding of Christ and the Christian faith.

Faith elements will be woven in and grow out of the piece organically. The entry should not contain undue profanity, graphic sex, or other objectionable material, and must otherwise conform to generally accepted standards of the CBA as determined by The Word Guild. Judges may request submissions not meeting this requirement be disqualified.
